

S.C.O.

Survivor Care Outfit

S.C.O. is designed to help survivors of sexual assault to feel more comfortable and dignified while addressing the issues of health concerns and social stigmas.

433,648
Victims of sexual assault
EVERY YEAR

On average,
an American is
assaulted every
73 seconds.

One out of every six
women is a victim
of attempted or
completed sexual
assault.

Care facilities often require survivors to turn in their clothing as forensic evidence.

In return, the patient only receives a hospital gown for the medical testing and hospital discharge unless the patient is able to produce additional clothing.
